Freedom is not rendered upon the people by those we elect, nor by those who skillfully use a pen to quill the news of the day, nor by the advocates who rise-up for their own just cause; freedom is granted by God Himself through the His blessing and curse of Free Will. But freedom is sustained only by those given the authority to ensure our freedom is not soiled or perverted. It is our vindicators and protectors who wear the uniform of the police officer and military that provide us the continuity of freedom and full benefit of liberty. ~ J. Powers

A.C.E. Fund Raising Ideas To Support Community Education Programs and Projects

The following is a list of potential fund raising projects for your A.C.E. Chapter. These are only suggestions, which may or may not be considered, but most are tried and true fund raising projects that have been successfully used by other organizations:

Winter poinsettia sale

Christmas tree sale

Wreath sale

Americana costume sale (Halloween season)

American flags, lapel and hat pins

A.C.E. tee and sweat shirts, caps, decals, jackets; American flag and A.C.E. patches, pencils and pens, and bumper stickers

Flower basket/flat sale

Gift basket sale

Participation in church bizzarres

Organize an A.C.E. fishing tournament

Pocket sized and/or laminated/fold-out Constitutions

Collect the most memorable and amazing statements of the Founding Fathers into a saleable booklet

Solicit one-page statements from senior citizens as to why they love their country, and assemble these statements into a small book. Sell the book in your local communities.

Solicit recipes from community women (especially grandmothers) and assemble a homegrown cookbook for sale in your local community and bookstores

Greeting card/Christmas card box sets with Americana themes

Flea market booths with A.C.E. and Americana products

Pre-pay Community Roasts of local and loyal American movers and shakers and A.C.E. members.

Parents vs. kids' soccer, baseball, basketball, and volleyball tournaments

Direct marketing to senior centers, motorcycle organizations, churches, community organizations, beauty shops and spas, community sports organizations, or community pet shows, A.C.E. block parties or block picnics with raffle prizes, booths at county fairs and community festivals, door-to-door and church solicitation, YMCA/YWCA classes, etc.

Example Community Programs and Projects

The following are suggested community education projects and program. Remember that community education is the primary mission of A.C.E. We exist to provide our countrymen with truth, which is unavailable due to the corruption of mass media, many of our "elected representatives." In order to take our nation back, we need to 1) educate ourselves and our communities, and 2) remove the globalists from office and replace them with loyal Americans. Therefore, our mission as an organization is to EDUCATE! Community programs and projects as follows:

Community seminar on Dr. Steven Yates' *The Real Matrix* – parts 1 through 9. Could also be taught at local colleges and/or in YMCA/YWCA classes. This series is also a must-read for all A.C.E.

Chapter members, and may be accessed/printed from www.newswithviews.com.

Summer library and reading program for children on Constitutional freedom

Projects for scouting organizations for an earned A.C.E. patch

A.C.E. lecture circuit

Publication of How To Run For Office booklets (and why you should)

A.C.E. parade participation – Independence Day

A.C.E. community workshops and seminars on specific and critical issues (like The Real Matrix by Dr. Steven Yates and the non-ratification and explanation/results of the 16th and 17th Amendments)

A.C.E. community festivals

A.C.E. motorcycle rides/tours and/or organize an A.C.E. club

Try to coordinate with local schools for A.C.E. programs in schools

Coordinate voter registration (non-partisan) and provide voting records of politicians, A.C.E. pamphlets and reading materials at the registration site

Teach classes at your local, YMCA/YWCA's and/or workshops and seminars about how to run for public office and critical American issues

Coordinate Town Hall Meetings with local and state representatives

Bring in national speakers for the sovereign America movement

Coordinate a monthly Have Dinner With American Patriots event, which will bring the community together at a sit-down, pre-pay event to hear senior veteran stories, American history stories, current local events issues, honor our veterans and Eagle Scouts, celebrate returning soldier, and guest speakers for the cause. Include community youth, and publicly celebrate their Americana accomplishments, as well.

Organize an official Honor our Veterans Day in your hometowns.

Organize gatherings to show important videos about the American condition and trends (refer to video/CD section at www.newswithviews.com). National A.C.E. is trying to organize a borrowing program for important videos and CDs.

Recapturing Primary Skills Workshops (for youth and adults) – teaching building, electrical, plumbing, planting, animal husbandry, firearms handling and safety, automobile, cooking, sewing skills, etc. – the primary skills needed for intelligent, affordable, and life-saving skills – especially during tumultuous times.

A.C.E.: Library Listing of Important Websites, Researchers, and Writings

The following lists are offered to A.C.E. Chapters for use in membership and community education projects and programs. Pick a topic, read and print information, distribute copies to members and community organizations, and/or create educational programs, syllabi, and/or seminar topics/education programs using these lists.

These websites introduce you to America's critical issues with credible information and researchers, and to spur your efforts to further study and document current trends in the United States.

We ask all A.C.E. members to read at least 2 articles/reports under each topic heading, as the primary mission of our organization is education – both of self and community. We guarantee you that once you begin to read, you won't be able to stop.

Remember to share your knowledge, forward websites and articles, and begin to brainstorm community education programs from your findings. We will be constantly adding to this list, so please contact us frequently for an updated copy. United in knowledge and mission we stand.

Weather Control Research and Legislation

(<http://weather.sweetliberty.org>)

"Others are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves. So there are plenty of ingenious minds out there that are at work finding ways in which they can wreak terror upon other nations. It's real, and that's the reason why we have to intensify our efforts, and that's why this is so important."

Tsunami Bomb NZ's Devastating War Secret

(www.sweetliberty.org/issues/weather/tsunami_bomb.htm)

New Zealand Herald, June 30, 2000

"Top-secret wartime experiments were conducted off the coast of Auckland to perfect a tidal wave bomb, declassified files reveal. An Auckland University professor seconded to the Army set off a series of underwater explosions triggering mini-tidal waves at Whangaparaoa in 1944 and 1945. Professor Thomas Leech's work was considered so significant that United States defence chiefs said that if the project had been completed before the end of the war it could have played a role as effective as that of the atom bomb."

Daily Times, January 3, 2005

"A Canadian expert has claimed that the US Military and the State Department were given advance tsunami warning and America's Navy base on the island of Diego Garcia in the Indian Ocean was notified but the information was not passed on to the countries that bore the brunt of the disaster."

It Could Happen Tomorrow: Weather Channel 'Forecasts' Hurricane for New York

(www.sweetliberty.org/issues/weather/weatherchannel.html)

In a promo for an upcoming show, the Weather Channel states: "And when the water arrives, it will come rushing toward 8.2 million New Yorkers, 2 million of them living directly in its path. ... This category 3 hurricane's approached to New York will be deceptively quick and deadly." How do they know this, unless they are privy to a plan?

Katrina Fuels Global Warming Storm

(www.sweetliberty.org/issues/weather/katrina_globalwarming.html)

Human activity is blamed for a phenomenon called "global warming". Articles like this one from the CONtrolled press, often quote "experts" who say rising temperatures are causing weather anomalies. At the same time, they fail to mention who the experts are, and that there are many experts who do not agree with the global warming rhetoric.

The Leipzig Declaration

(www.sweetliberty.org/issues/weather/leipzig.html)

"As the debate unfolds, it has become increasingly clear that -- contrary to the conventional wisdom -- there does not exist today a general scientific consensus about the importance of greenhouse warming from rising levels of carbon dioxide. In fact, many climate specialists now agree that actual observations from weather satellites show no global warming whatsoever... based on all the evidence available to us, we cannot subscribe to the politically-inspired world view that envisages climate catastrophes and calls for hasty actions..."

Climate Change Drives Disease to New Territory

Good news! The Senate voted yesterday 84-16 to pass the pro-gun Vitter amendment.

The language, offered by Sen. David Vitter (R-LA) as an amendment to the Homeland Security appropriations bill (HR 5441), will make it illegal for federal agents to confiscate firearms during an emergency or major disaster. The provision must now survive a conference committee -- where House and Senate negotiators will iron out differences between the spending bills passed in both chambers.

If the Vitter language makes it to the President's desk, it will perfectly complement what has been happening in the states. This year, one of GOA's highest priorities has been to address the problems with so-called "emergency powers" across the country.

GOA-supported bills have made it absolutely certain that no government official could disarm the citizenry during an emergency, and several states -- ten in all -- have already enacted their bills into law.

Sen. Vitter, who less than a month ago was presented with the Legislator of the Year award by Gun Owners of America, made special mention of this groundswell of support that has been rising around the country. It was especially significant that his own state of Louisiana recently enacted a ban on confiscating firearms -- an action taken to correct the gun thefts, which occurred there in the aftermath of Hurricane Katrina.

GOA spent a lot of time in Louisiana, getting gun owners in the state to lobby their own legislators this spring. The results were astounding.

The sponsor of the Emergency Protection legislation in the state, Rep. Steve Scalise, told GOA that, "I've had a number of [Representatives] come up to me asking to co-author my bill because they heard from members of Gun Owners of America in their districts in support of my bill," Scalise said. In the end, 80% of the House cosponsored his bill.

If you have ever wondered if your activism makes a difference, then wonder no more.

One U.S. Senate office told GOA after yesterday's vote, "They obviously got your message loud and clear. It was the most lopsided gun vote I have ever seen. There was some serious hand wringing on the democratic side."

Why was there "serious hand wringing"? Because your efforts made it VERY difficult for anti-gun Democrats to vote against the Vitter language.

Again, there were only 16 Senators who voted wrong. If you look at GOA's Senate rating -- at <http://www.gunowners.org/109srat.htm> -- you'll see a lot more than just 16 F's in that chamber.

So who were the Senators who were arrogant enough to stand by their anti-gun convictions and vote against this common-sense legislation?

They were:

Akaka (D-HI)
Boxer (D-CA)
Clinton (D-NY)
Dodd (D-CT)
Durbin (D-IL)
Feinstein (D-CA)
Harkin (D-IA)
Inouye (D-HI)
Kennedy (D-MA)
Lautenberg (D-NJ)
Levin (D-MI)
Menendez (D-NJ)
Mikulski (D-MD)
Reed (D-RI)
Sarbanes (D-MD)
Schumer (D-NY)

Basically, these senators said that when your life is in danger, you don't have the right to defend yourself. You are just supposed to pick up the phone and dial 9-1-1. Your guns are part of the problem because they could be stolen by bad guys. And you don't need guns anyway because the police are there to protect you.

These are actually the talking points from the anti-gun side of the aisle yesterday. They told the Senate -- and the country -- that

YOUR guns were the problem. Your duty is simply to call the police when you're in danger.

Of course, calling 9-1-1 doesn't work very well when the neighborhood is flooded, the phones aren't working and chaos is in full bloom. Sen. Vitter made this point very eloquently, and he should be commended for his efforts in defense of our gun rights.

Again, GOA thanks all of you who took action yesterday. Your activism and your financial support is greatly appreciated and is necessary to allow us to remain here fighting for your rights.

To help continue GOA's legislative efforts, you can go to <http://www.gunowners.org/ordergoamem.htm> or call 703-321-8585.

N.A.F.T.A. SUPERHIGHWAY BEGINS CONSTRUCTION NEXT YEAR

By Joe Kress
July 4, 2006
NewsWithViews.com

"Quietly, but systematically, the Bush Administration is advancing the plan to build a huge NAFTA 10 lane super highway, four football fields wide through the heart of the U.S. along Interstate 35, from the Mexican border at Laredo, Tex., to the Canadian border north of Duluth. Minn.

(www.humaneventsonline.com/article.php?id=15497)

Unbeknownst to the general public because of a "George W. edict" we became a part of the North American Union. Sieg Heil!

"This plan appears to have been assembled under the watchful eye of U.S government agencies, dozens of state agencies, and scores of private non-governmental organizations working behind the scenes to create this NAFTA super highway, despite the lack of comment by President Bush. The American public is largely asleep to this key piece of the coming North American Union that government planners in the new trilateral region of the United States, Canada and Mexico are about to drive into reality" (Quoted from **article by Jerome R Corsi** www.humaneventsonline.com/article.php?id=15497) in Human Events, posted January 12, 2006).

The road is to be electronically checked only by the new "SENTRI" system. There is confidence in the security of the system because it will be located at off ramps and along the parallel pipelines for its entire length and it will be four football fields wide, according to Mr. Corsi's report. The intent is to eventually run the road through Central and South America.

No doubt, many key politicians, government bureaucrats and key Non-Government Organizations elite players were fully aware of this end run, but few in the general public even now have a clue that all this discussion about open borders is of little consequence, since the trilateralists headed by the Ford, Carter, H.W. Bush Administrations, the Clinton Administration und auch das Führer George W. gemeingefährlich Verwaltung are facilitators for their masters' goals through this key component of physically linking a mega-highway from the tip of Chili to the northern most points of commerce in Canada. The long planned purpose is to implement the New World Order of borderless countries throughout the hemispheres.

The nonprofit North America Super-Corridor Coalition, Inc. was instrumental in de-signing this plan, since it is dedicated to develop the first integrated, secure, multi-model transportation system along the International Mid-Continent Trade and Transportation Corridor. The intent is to run gas and oil lines parallel with the highway 69 with built in security sensors. The supposed purpose of this end run is to make the border controversy non importa and in install an oil and natural gas pipe line parallel to the mega highway also, a rail line. This will bypass ocean transportation... a major bonanza for Mexico and Venezuela, paid for by U.S. taxpayers. Is this plan to improve the quality of life in North America or to fill the coffers of the instigators?

Probably the majority in congress were not aware that Das Führer Bush had launched an extensive working-group activity towards implementation between the U.S., Canada and Mexico and the membership of these groups have not been published, according to a June 13, 2006 World Net Daily report by J. R. Corsi. The American Super Corridor Coalition was identified by Corsi's article in another news outlet, Human Events, the day before, on June 12 2006. In other words, Mr. Corsi's revelations are spreading throughout the media.

These groups (whoever they may be) are working under the North American Trade Agreement (NAFTA) office located in the U.S. Department of Commerce and are to implement the Security and Prosperity Partnership, or SPP. This agreement was not sent to Congress for review.

My take of this road plan is for whom the bell tolls, it tolls for us the bone fide U.S. citizens who are being hoodwinked and left out of the picture until it's a done deal. Behind the scene are Bush's masters, elite manipulative planners headed mainly by the European Central bankers who control our money system, members of the Bilderberg Group of which belong that international socialist and currency manipulator George Soros and his scheming cohort, the infamous multi-billionaire, David Rockefeller. The latter is the founding father of the Trilateral Commission and honorary chairman of the Council on Foreign Relations. These two major conspirators (besides the Rothschild, Warburg and Schiff interests and other Bilderberg member banking interests) are involved in reformatting our country and our Constitution.

Ownership of the U.S. Federal Reserve: Rothschild Bank Of London, Warburg Bank of Hamburg, Rothschild Bank of Berlin, Lehman Bros. of New York, Lazard Brothers of Paris, Kuhn Loeb Bank of New York, Israel Moses Seif Banks of Italy, Goldman Sachs of New York, Warburg Bank of Amsterdam, Chase Bank of New York The road's environmental impact will be mind-boggling as well as devastating. Wetlands and forests will forever be cemented over. Corsi reported that the next tier of Interstate 69 to be scheduled crosses through Indiana and will provide a direct connection between Indianapolis and Evansville. In this stretch alone, 1150 acres of forests and the destruction of 300 acres of wetlands won't even take into account the sprawl and development of the once peaceful area around the highway. Those farmers, environmentalists, hunters and businesspeople aware of the plan have made their complaints known in major Indiana newspapers against the proposed highway.

If the plan is enacted, the corrupt Latin American governments will export their low wage produced goods in a one way direction North, and cheap Chinese goods will be offloaded at the port of Huston or those ports below the border which will further impact what's left of U.S. small business manufactured goods. The dollar will have to drop to the level of the Mexican peso for our manufactured exports to become affordable to consumers located in these mainly socialist leaning, south of the border countries.

The dollar is already devalued and that may be part of the plan. Of course, all the savings in bank accounts, the value of life insurance policies, retirement benefits and investments will suffer even more than they have already when the next inflationary bomb explodes as a result of the continuing drop in the value of the dollar. Disregarding the road project, the bomb at this stage is a firecracker and has a long way to blow sky high. Yet, inflation statistics reveal that the government publications are already suppressed and the present real inflation rate, according to private studies, is actually four times the government figures. The reason is that it costs more to buy foreign products that we no longer produce with a lower valued dollar.

What really is upsetting is the foreign auto makers are making tremendous profits which land up in Japan and Korea. They're hiring more and more America labor, while large U.S. companies such GE, the airlines and General Motors and Ford are declining and cutting back employees, pensions and benefits. Actually, the treasury is bringing in a huge surplus of tax revenue from small business tax collections, but our Congress and this President spend the money faster than it comes in to the treasury which raises our deficit to a mind-boggling \$8.1 trillion dollars.

Was our Congress totally asleep at the switch that it would allow enormous quantities of foreign goods from the low wage countries to be trucked in mass along a 10 lane highway that further undercuts the soft underbelly of what is left of our manufacturing capacity? Surely, the Bush plan was available to a few members of congress. They kept their mouths shut until the project's plan was well developed, long before Bush's signing the agreement with Mexican and Canadian leaders.

I surmised why these insiders have not voiced an opinion regarding the agreement that President Bush and President Vicente Fox of Mexico and the then-Prime Minister Paul Martin signed in Waco, Tex. on March 23, 2005. It was because a few in Congress and our government, the pro-illegal immigrations enthusiasts, were key consultants for the plan. It's been over a year ago, and hardly a whimper from these political/bureaucrat feather merchants. Not until now, are the hearings scheduled and from the looks of how far the plans have progressed along Interstate 69 with the cooperation of the Departments of Commerce and Transportation and scores of NGOs working behind the scenes...the illustrious representatives in these hearings will easily cave in. As usual, our competitive partners have a major stake in the action. No doubt, bribery will win out.

Jeffrey Schott, senior fellow on international trade policy at the Institute for International Economics says free trade agreement play an important role in spurring improvements in developing and emerging market countries. "These deals are about provoking domestic reform in the partner countries which will make it easier for them to pursue further liberalization at the multilateral level, if they introduce more market oriented reforms in their domestic policy."

The fact is that Washington negotiators insist on fair labor standards and intellectual property rules far in excess of the WTO requirements. This works against the global goals of the money changers. To add to the complexity of trade, Mexico's government ho has failed miserably in using the benefit of trading with the U.S. No investment has been made to build its infrastructure. There is a great divide between the more prosperous North than is the center and the southern end of the country.

Washington geopolitics have made a negative impression on the smaller states below the border. They look at the U.S. as a bully which in turn has resulted in leftist emerging governments antagonistic towards Washington. Maybe that attitude will save us from the disaster, if leftists' planners refuse to cooperate because of their alliances with the Red Chinese Government and Castro.

Why is it that our Congress is seemingly always ahead of the curve when it benefits international interests but maintains a schizophrenic position when determining the rules of the game? The small countries to our south are always in fear that our military will be used against them. They have nothing to fear because congressional greed and partisan politics, uncontrolled immigration and involvement in as series of non-war wars with our military extended all over the globe and serving as the advance guard of the blue helmeted UN's future army makes it impossible to be a real threat to Venezuela for example. Add this monstrous deficit which can only be solved by devaluating the dollar to a level that the Germans experienced in 1921, when it cost a wheelbarrow full of Mark notes to buy a loaf of bread which in turn ushered in the Nazi Party.

The fact is I don't think greed and ineptitude is the main reason our country is careening down the road to third world status. I believe it is organized from the top which has its minions striving for this New World Order of which George Herbert Walker Bush announced after the first Iraq War. I believe that our presidents, going back to President Wilson, with the exception of Harding and Coolidge, all had the goal of adopting something similar to the League of Nations stemming from the aftermath of WW I. In order to accomplish this goal, our nation must lose its sovereignty and its Constitution to be replaced by the U.N. Charter. This process has already begun when two Supreme Court justices, Stephen Breyer (CFR) and Ruth Bader Ginsberg (CFR). They believe that our Constitution is a living document that can be changed the same as the Soviet Union's which was really no constitution meant to accommodate current conditions. Both justices believe that this nation is to adopt international rulings emanating from The Hague's justice system. It was Henry Hyde, Republican and member of the Council on Foreign Relations who said that our Constitution is out of date and should be considered only as a historical document.

The powerful international puppeteers pull the strings of national governments for the purpose of manipulating the course of geopolitics so that some day all currency will be controlled by a single mega central bank, not only in Europe and the United States as it exists now, but globally. The United Nations will finally be the arbiter of all decisions related to trade, economies, conflict of interests, health, communications and security. Sitting in the catbird seat of this New World Order are those that control the money system, assisted by a legion of dedicated facilitators the likes of which belong to the aforementioned organizations, i.e., CFR, Trilateral Commission and the Bilderberg Group; each striving to accomplish the goal of what can only be termed International Capitalistic Socialism with great wealth at the top of the pyramid, no middle class and servile peasantry at the bottom.

Key heads of major industries who are working with our globalist POTUS belong to the above organizations. Those at the pinnacle, who hold the real power are Prince Bernhard who started the Bilderberg Group conferences, Queen Elizabeth II, one of the richest persons in the world, The Duke of Kent, cousin of the Queen, Queen Beatrix of the Netherlands, Grand Masters of the York[1] Rite of Freemasonry, Henry Kissinger, George Soros, currency trader and multi billionaire, Maurice Strong,[2] Lord Rothschild, David Rockefeller and others who are listed as Bilderberg members, all of whom are working hard to accelerate the time table to change the United Kingdom, the United States and the European Union's quality of life. It is meant to create total government control by dummying down education systems, eradicate private, religious and home schooling of children; rewrite national histories and loyalties; suppress the national heritages; subordinate the justice systems by placing them under the International court of Justice; replace government constitutions with the U.N. Charter; and end, once and for all, religious institutions.

So far, the most progress has been accomplished in Europe as the result of the Maastricht Treaty. The majority of the organization members and business are motivated by the premise that no country should be so powerful as to influence world commerce or dictate the rules forcing other nations to comply, especially in areas of economics and military ventures. Their purpose is meant to limit the United States as the leader of the world whose congresses, presidents and court system are notoriously fickle, slaves to lobby interests and unreliable to keep to any course of sustained action.

"The Council on Foreign Relations (CFR) has been rightly described as the preeminent intermediary between the world of high finance, big oil, corporate elitism and the U.S. government. Its members slide smoothly into cabinet-level jobs in Republican and Democrat administrations. The policies promulgated in its bi-quarterly journal, Foreign Affairs, becomes official U.S. government policy." (Quote from Author and Journalist, Jonathan Vankin)

Within its membership that includes 4,000 of the most powerful people in the world of U.S. business, academia, media and politics along with an endowment that has tripled over the past decade. After going through this list, you shouldn't have any doubt that our nation is controlled, not by a representative system of

government, but betrayed by just the opposite of what our Founding Fathers intended ... an oligarchy.

International Transportation Corridors in U.S.

INTERNATIONALIZING U.S. ROADS

Phyllis Spivey

June 10, 2005

<http://www.newswithviews.com/Spivey/phyllis3.htm>

Imagine this: your state government puts a transportation corridor in your neighborhood. It's nearly a quarter-mile wide. It will serve vehicles and trains and incorporate oil, gas, electric and water lines. Try to fight it and you'll not only face the combined might of your local, state, and federal governments, but foreign interests as well. The internationalization of U.S. roads has begun.

(<http://www.answers.com/topic/1972>). Since then, 180 state parties (countries) have ratified the convention.

"The United States (<http://www.answers.com/topic/united-states>) initiated the idea of combining cultural conservation with nature conservation. A White House (<http://www.answers.com/topic/white-house>) conference in 1965 (<http://www.answers.com/topic/1965>) called for a *World Heritage Trust* to preserve "the world's superb natural and scenic areas and historic sites for the present and the future of the entire world citizenry." The International Union for Conservation of Nature

(<http://www.answers.com/topic/world-conservation-union>) developed similar proposals in 1968 (<http://www.answers.com/topic/1968>), and they were presented in 1972 (<http://www.answers.com/topic/1972>) to the United Nations (<http://www.answers.com/topic/united-nations>) conference on Human Environment in Stockholm, Sweden(<http://www.answers.com/topic/stockholm>).

"A single text was ultimately agreed on by all parties involved, and the *Convention Concerning the Protection of World Cultural and Natural Heritage* was adopted by the General Conference of UNESCO on 16 November (<http://www.answers.com/topic/november-16>) 1972 (<http://www.answers.com/topic/1972>).

"Each World Heritage Site is the property of the country on whose territory the site is located, but it is considered in the interest of the international community to preserve each site for future generations of humankind. The protection and conservation of these sites are a concern of all the 180 World Heritage countries." Information retrieved from www.answers.com.

American Biosphere Reserves

The following is a list of *known* United Nations' administered Biosphere Reserves in the United States – including their national administrators. Read it, weep, understand and comprehend the loss of private property rights in OUR nation, and educate your communities well (this list was revised in 1999, and since then more sites have been “nominated” for inclusion):

NPS - National Park Service, Department of Interior

NOAA - National Oceanic and Atmospheric Administration, Department of Commerce

FWS - U.S. Fish & Wildlife Service, Department of Interior

FS - Forest Service, Department of Agriculture

Congress and Faith Based Initiatives

By Nancy Levant

"Congress shall make **NO LAW** respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances." The **first amendment to the US Constitution** clearly says that Congress can make no laws that pertain to the church.

The reason they can do so now is that practically all churches have become a corporation with a 501(c)3 status. In 1954 there were no 501(c)3 churches, but thanks to Lyndon Johnson and his bill and the propaganda, droves of ministers signed up their churches to be a corporation and thus **had** to apply for tax exempt status. Ministers didn't know they were signing away their Constitutional guarantee.

It is possible for the Churches to get out from under this 501(c)3 control and become a non-corporation, thus giving the ministers the freedom to tell their congregation the truth about the government and the politicians without threats. Of course they would have to study up and care enough to learn the truth. This would take some humility, which I don't see much of in today's church.

IRS Warns Churches Against Campaigning

LOS ANGELES (AP) -- The Internal Revenue Service has been warning churches and nonprofit organizations that improper campaigning in the upcoming political season could endanger their tax-exempt status.

In notices to more than 15,000 tax-exempt organizations, numerous church denominations and tax preparers, the agency has detailed its new enforcement program, called the Political Activity Compliance Initiative, the Los Angeles Times reported Tuesday.

Under the initiative, the IRS plans to expedite investigations into claims of improper campaigning, no longer waiting for an annual tax return to be filed or the tax year to end before launching a probe. A three-member committee will make an initial review of complaints and then vote on whether to pursue the investigation in detail.

"While the vast majority of charities and churches do not engage in politicking, an increasing number did take part in prohibited activities in the 2004 election cycle," IRS Commissioner Mark W. Everson said in a statement. "The rule against political campaign intervention by charities and churches is long established. We are stepping up our efforts to enforce it

Since 2004, the IRS has investigated more than 200 organizations, including All Saints Church in Pasadena.

Two days before the 2004 presidential election, the Rev. George F. Regas, the church's former rector, delivered a guest sermon that pictured Jesus in a debate with George W. Bush and John Kerry. Although Regas didn't endorse a candidate, he said Jesus would have told Bush that his pre-emptive war policy "has led to disaster."

The church drew national attention when the Rev. Ed Bacon, rector of All Saints, disclosed the IRS investigation and later said the agency believed the church had violated federal tax code barring tax-exempt organizations from intervening in political campaigns and elections.

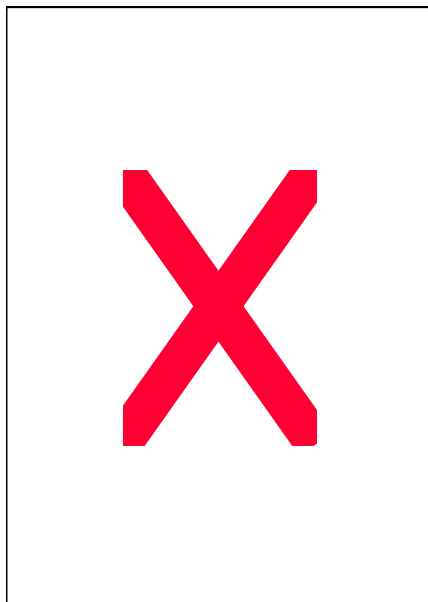

Church leaders have not heard from the IRS since October, when the agency said the investigation was being taken to a higher level, according to Regas. The IRS has not confirmed whether the investigation is still ongoing.

Of the 62 organizations determined by the IRS to be in violation, three lost their nonprofit status and 59 received warning letters. The three who lost their status were not churches, and some of those warned were ordered to pay an excise tax.

Federal law prohibits the IRS from releasing the names of those under investigation, but the agency said it has more than 100 cases pending and 40 of them are churches.

This month, OMB Watch, a Washington-based nonprofit government watchdog group, issued a report criticizing the IRS enforcement program and said the program could prompt retaliatory and harassment complaints unless the agency develops clear guidelines.

501c3 Facts

Most churches in America have organized as "501c3 tax-exempt religious organizations." This is a fairly recent trend that has only been going on for about fifty years. Churches were only added to section 501c3 of the tax code in 1954. We can thank Sen. Lyndon B. Johnson for that. Johnson was no ally of the church. As part of his political agenda, Johnson had it in mind to silence the church and eliminate the significant influence the church had always had on shaping "public policy."

Although Johnson proffered this as a "favor" to churches, the favor also came with strings attached (more like shackles). One need not look far to see the devastating effects 501c3 acceptance has had to the church, and the consequent restrictions placed upon any 501c3 church. 501c3 churches are prohibited

from addressing, in any tangible way, the vital issues of the day.

For a 501c3 church to openly speak out, or organize in opposition to, anything that the government declares "legal," even if it is immoral (e.g. abortion, homosexuality, etc.), that church will jeopardize its tax exempt status. The 501c3 has had a "chilling effect" upon the free speech rights of the church. LBJ was a shrewd and cunning politician who seemed to well-appreciate how easily many of the clergy would sell out.

Did the church ever need to seek permission from the government to be exempt from taxes? Were churches prior to 1954 taxable? No, churches have never been taxable. To be taxable a church would first need to be under the jurisdiction, and therefore under the taxing authority, of the government. The First Amendment clearly places the church outside the jurisdiction of the civil government: "Congress shall make NO LAW respecting an establishment of religion, nor prohibiting the free exercise thereof."

Religion cannot be free if you have to pay the government, through taxation, to exercise it. Since churches aren't taxable in the first place, why do so many of them go to the IRS and seek permission to be tax-exempt? It occurs out of:

- Ignorance ("We didn't know any better")
- Bandwagon logic ("Everyone else is doing it")

- *Professional* advice (many attorneys and CPAs recommend it)

Does the law require, or even encourage, a church to organize as a 501c3? To answer that question let's turn to what the IRS itself has to say.

Churches Need Not Apply

In order to be considered for tax-exempt status by the IRS an organization must fill out and submit IRS Form 1023 and 1024. However, note what the IRS says regarding churches and church ministries, in Publication 557:

Some organizations are not required to file Form 1023. These include: Churches, interchurch organizations of local units of a church, conventions or associations of churches, or integrated auxiliaries of a church, such as a men's or women's organization, religious school, mission society, or youth group. *These organizations are exempt automatically* if they meet the requirements of section 501(c)(3).

Churches Are “Automatically Tax-Exempt”

According to IRS Code § 508(c)(1)(A):

Special rules with respect to section 501(c)(3) organizations.

(a) New organizations must notify secretary that they are applying for recognition of section 501(c)(3) status.

(c) Exceptions.

(1) Mandatory exceptions. Subsections (a) and (b) shall not apply to—

(A) churches, their integrated auxiliaries, and conventions or associations of churches.

This is referred to as the "mandatory exception" rule. Thus, we see from the IRS' own publications, and the tax code, that it is completely unnecessary for any church to apply for tax-exempt status. In the IRS' own words a church “is automatically tax-exempt.”

Churches Are “Automatically Tax-Deductible”

And what about tax-deductibility? Doesn't a church still need to become a 501c3 so that contributions to it can be taken as a tax deduction? The answer is no!

According to IRS Publication 526:

Organizations That Qualify To Receive Deductible Contributions

You can deduct your contributions only if you make them to a qualified organization. To become a qualified organization, most organizations *other than churches* and governments, as described below, must apply to the IRS.

In the IRS' own words a church “is automatically tax-deductible.”

Churches Have a Mandatory Exception To Filing Tax Returns

Not only is it completely unnecessary for any church to seek 501c3 status, to do so becomes a grant of jurisdiction to the IRS by any church that obtains that State favor. In the words of Steve Nestor, IRS Sr. Revenue Officer (ret.):

"I am not the only IRS employee who's wondered why churches go to the government and seek permission to be exempted from a tax they didn't owe to begin with, and to seek a tax deductible status that they've always had anyway. Many of us have marveled at how church leaders want to be regulated and controlled by an agency of government that most Americans have prayed would just get out of their lives. Churches are in an amazingly unique position, but they don't seem to know or appreciate the implications of what it would mean to be free of government control."
